

Crushed infused olive oil

CANAAN

PALESTINE

Organic and Fair
e 250 ml

Canaan's crushed infused olive oil is prepared with select original sharp Surri variety olives, crushed together with fresh lemons, chilies or herbs. This remarkably fresh combination at the pressing allows the full rich, olive oil flavor to blend with the added ingredients right from the start. It is prepared only once a year during olive harvest.

Our olive oil's complex features join the fresh flavor of lemon zest, purple basil, spicy wild thyme, savory garlic, and hot chili pepper. Canaan's crushed olive oil is delicious for dipping or to drizzle over salads, eggs or meat dishes.

Canaan Palestine is an internationally recognized ecological project with product offerings produced by small scale farmers under fair trade conditions, organized in over 50 communities across Palestine into the most innovative ecological farming practices in the middle east. Canaan supports these practices with modern organic knowledge to maintain the production with its organic-original taste and attributes and continue it's regenerative capacities as it has been for millennia by using superior processing techniques and technologies.
